

Customizing the Prompt (Lab)

 coursera.org/learn/linux-for-developers/supplement/UQqck/customizing-the-prompt-lab

Exercise

Set the prompt to be:

- **current directory**> (i.e. **/home/coop**>)
- **machine name:user:current directory**> (i.e. **quad64:coop:/home/coop**>)
- anything else you would like (play!)

Solution

You can find a solution for this lab exercise here:
